

Fédération Internationale de Gymnastique

Contract 22AYCA094186

Athletes & Judges

When are you insured ?

Starting date and duration of insurance

Cover begins on the day on which the insured person sets out on a journey abroad to participate to sporting events organized by the FIG – where the licence is required – and figured in the official calendar of the FIG.

It ends after his return to his permanent domicile. He is only covered for travelling direct from home to the competition and back home.

Who is insured ?

Group of insured persons

Are insured :

- athletes with a valid FIG licence
- judges with an international patent
- education experts

What to do in an emergency ?

In the event of admission to a hospital or emergency treatment, IMSSA **must be notified immediately** on the following telephone number:

24/7 + 41 26 921 8001

Once this contact has been established, the physicians of the insurer decide, after consulting the physicians who are treating the insured person, which means of transport, which hospital and which medical treatment are the best solution in the given circumstances.

In the event of admission to hospital following an accident or an illness covered by the insurance scheme, the insurer pays the hospital and ambulance costs. All other medical and pharmaceutical expenses should be paid by the insured person and the accompanying receipts kept. After returning to his country of domicile, the insurer will refund all the expenses which are covered by the insurance.

What to do when problems arise ? Who to contact ?

For less urgent cases or for any information :

Please consult the web site www.imssa-sos.com with your member login : **FIG** & **22AYCA094186**

There you will find the claim forms to be completed online, the recommendations and the documents to be supplied (originals) for the rapid reimbursement of your medical costs.

FIG wishes you a safe trip and thanks you for your commitment to gymnastics.
