# 1. WELCOME MESSAGES

## **FISU President**

Dear Participants,  
Dear Heads of Delegations and Coaches,

On behalf of the International University Sports Federation, it is a pleasure and honour for me to welcome you in Gwangju – Republic of Korea – on the occasion of the 28th Summer Universiade from 3 July to 14, 2015.

I would like to emphasise the enormous work made throughout the last two years by the FISU Technical delegates under the supervision of the CTI Chairperson, the FISU staff from the Summer Universiade department and the sports Directors from the Organising Committee.

They have worked continuously in close co-operation with all relevant Federations and authorities to give the opportunity to the student athletes to compete in the best possible conditions.

The manual which is presented to you here is a result of the efforts being made by each and every one in order to provide the team officials and athletes all necessary sports information to participate in a smooth manner and perform at their best.

We would like to thank the officials and members of the Organising Committee for their hard work in making this event one of the best in the FISU history. Without their enthusiasm and dedication we would not have been able to integrate all partners (volunteers, judges and referees, private and public sectors, and athletes) in this event.

We, FISU and the Organising Committee, look forward to your participation.

We are convinced that this 28th Summer Universiade will be a great sporting and human experience for all participants and more specifically for the student-athletes who will compete first here in Gwangju.

I and the entire FISU Family wish you all the best for a most successful Summer Universiade here in Gwangju.

Claude-Louis Gallien  
FISU President

EPIC symbolizes Gwangju as a city of democracy, human rights and peace, which will hopefully spread to each and every part of the globe through this Summer Universiade.

For over six years, the citizens of Gwangju have devoted themselves to preparing for this mega sports event for youth in cooperation with relevant parties so that the participating athletes may perform at their best in a perfect environment. The Korean flag is called Taegeukgi. Its design symbolizes the principles of the yin and yang in Asian philosophy. The circle in the center of the flag is divided into two equal parts. The upper red section represents the proactive cosmic forces of the yang. Conversely, the lower blue section represents the responsive cosmic forces of the yin. The circle is surrounded by four trigrams, one in each corner. Each trigram symbolizes one of the four universal elements: heaven, earth, fire, and water.

### History and Culture

Life was discovered in the Korean peninsula about 700,000 years ago, and around BC 2000, Gojoseon, the first kingdom of Korea was born. As a country of 5000-year history, Korea has many diverse cultures and relics, as well as unique regional specialty products.

Participating athletes must abide by relevant regulations and follow given guidelines when they have been selected and notified for testing. Any athlete who refuses to undergo testing, or interferes with the testing process, will be considered to have committed a doping violation and be subject to disciplinary action.

### **Doping Control Station (DCS)**

Doping control stations are designed in accordance with WADA and FISU regulations. Samples for testing are collected in the Doping Control Station of each competition venue and can be collected at the Doping Control Center (Doping Control Station) located within the Athletes Village.
