General principle: draw for mixed groups and teams into the subdivisions and apparatus

First step: to draw the individual gymnasts into the "mixed groups"

- To prepare bowl #1 with the names of countries with individuals.
- To prepare bowl #2 with numbers equal to the number of "mixed groups".
- To put the cards with the names of countries with 3 gymnasts into bowl #1; to draw the country from bowl #1, then the number for the "mixed group" from bowl #2.
- To put the cards with the names of countries with 2 gymnasts into bowl #1; to draw the country from bowl #1, then the number for the "mixed group" from bowl #2.
- To put the cards with the names of countries with 1 gymnast into bowl #1; to draw the country from bowl #1, then the number for the "mixed group" from bowl #2.

Note: when a "mixed group" is full, then to take the number for the "mixed group" out from bowl #2.

A maximum of five (5) athletes per "mixed group" will in principle be allowed so as to not exceed the "team group" of 5 athletes. In exceptional cases, mixed groups may also be composed of 6 or 7 gymnasts if needed. No individual gymnasts may be added to a "team group".

Second step: to draw the teams and "mixed groups" into the subdivisions and apparatus

- To prepare the cards with the names of the countries with a "team" and with the numbers for the "mixed groups".
- To prepare the cards indicating the subdivisions' numbers into bowl #1
- To prepare the cards indicating the apparatus into bowl #2

- To put the cards with the names of the countries with “teams” into bowl #3
- To put the cards with the names of the “mixed groups” into bowl #4
- For the women’s draw, each subdivision will be composed of 2 “teams” and 2 “mixed groups”.
- For the men’s draw, each subdivision will be composed of 3 “teams” and 3 “mixed groups”.
- To draw from all 4 bowls in the above order until all “teams” and “mixed groups” are assigned into the subdivisions and apparatus.
